

For Guidance Only - FR Logic Tree - IRB Law & RFU Regulation take Precedence

For use when one front row replacement is required in the squad e.g. at Level 5 and below.

No. of Replacements	No. of Interchanges	Teams fielding fewer than the permitted number of replacements will still be allowed the number of interchanges stipulated for the number of replacements permitted in the game played.
up to 3	8	
4	9	
5	10	
7 or 8	12	

Player is not replaced and the game continues with uncontested scrums (14).
The non offending team will be awarded the game and will be deemed to have scored 4 tries. The offending team may (at the discretion of the Organising Committee) be subject to further penalty, that may include the deduction of Championship points.

Rolling Substitutions
 Each player swap is counted as an interchange. There is no distinction between a blood injury and any other injury. Once the maximum number of interchanges has been reached, no further substitutions will be allowed. A "recovered player" is one who originally left the field for the treatment of a minor injury or for further assessment of an injury. For the avoidance of doubt, a nominated front row player who is not capable of assuming a front row position, is not considered to be a "recovered player" and is not permitted to return to the field of play.

Numbers in brackets denote how many players remain on the field of play - e.g. (14) or (15)

Midlands Division Organising Committee
 Chairman - Paul Kaminski (kami.rugby@paulkaminski.demon.co.uk)
 Secretary - Roger Rees (rogerwrees@sky.com)
 RWR August 2014

In any of the above circumstances the score at the end of the game stands.
